## COVID-19 WATCH

## PRESIDENT'S CORNER

### ZBCA Recruits a Receptionist

In line with the on-going rebranding of the Association, I am glad to report to you that we have recruited a Receptionist to manage the reception desk. Her name is Talent Kanyangara, a Speciss College graduate in Executive Secretarial Studies. This is an effort to ensure that stakeholders of the Association are accorded a warm reception when contacting the Association either by phone or in person. May I call on all stakeholders to give her all the support that she needs as well as wishing her a long and rewarding career with the Association.

On another note, I wish to appreciate the members of ZBCA for embracing the new subscription structure. This is the beginning of a long and often painful but necessary journey to make ZBCA a self-reliant organization. Self-reliance is a prerequisite for successful programming which is the reason for the existence of our organization. We owe it to ourselves to ensure that the Association achieves the status of self-reliance by the end of the Association's 5-year development plan that we are putting together.

I thank you.

## Private Sector Supplier Registration

### Supplier Renewal 2022

Liquid Intelligent Technologies is a pan-African technology group with capabilities across 14 countries, primarily in Sub-Saharan Africa. Established in 2005, Liquid has firmly established itself as the leading pan-African digital infrastructure provider. Liquid Intelligent Technologies is redefining Network, Cloud and Cyber Security offerings through strategic partnerships with leading global players, innovative business applications, intelligent cloud services and world-class security to the African continent.

Liquid is now a full one-stop-shop technology group that provides tailor-made digital solutions to businesses in the public and private sectors across the continent. The Group also operates state-of-the-art data centers in Johannesburg, Cape Town, Nairobi, Harare, and Kigali, with a combined potential 19,000 square meters of rack space and 78 MW of power. Through this combined offering, Liquid Intelligent Technologies is enhancing customers' experience on their digital journey.
